THE PERFECT FIT® BLIND COLLECTION

Perfect Fit blinds are designed to fit seamlessly within the frame of your uPVC windows and doors without the need for drilling or screws. They are ideal for modern homes with tilt-and-turn windows, conservatories or patio doors. Available for Roller, Pleated, Cellular, Vision® and Venetian blinds.

unique system

Perfect Fit is unique because the blind sits within the frame, flush against the glass, giving a neat, streamlined look. This integration ensures that the blinds move with the window or door when opened or tilted.

no drilling

There's no drilling or screwing into your window frames for a quick and clean installation.

These blinds clip directly into the window frame using a specially designed bracket system. This avoids any damage to the frame or wall.

increase privacy

There are reduced gaps at the edge of the blinds which reduces light strike and increases your privacy.

It leaves window sills clutter free and the blinds are easily removable for cleaning.

NO DRILLING

Stylish Perfect Fit® blinds are a fantastic choice for most uPVC windows and doors, and they're so easy to fit with no holes drilled into your window frames.

why choose perfect fit

Sleek, contoured frame profile with a modern matt white finish, perfectly matching white PVC window frames.

Quick, screw-free installation saves time and effort.

Redesigned fascia allows longer fabric drops.

Opaque end caps block light to prevent halo effects.

Close fit improves insulation, reducing drafts and retaining heat.

Easy to remove for cleaning and maintenance.

Cordless design ensures child safety.

Please note: Blackout fabric does not create a fully blackout blind, there will be lightstrike at the edge of the blind between the fabric vanes.

perfect fit

AWARD WINNING

Louvolite Perfect Fit® is a revolutionary system that enables window blinds to be fitted perfectly onto most double glazed windows and doors, with no holes drilled into your uPVC frame.

Save on your fuel bills with Perfect Fit

Perfect Fit blinds provide excellent insulation by reducing heat loss and minimising drafts. Their snug fit helps maintain indoor temperatures all year-round, improving energy efficiency and lowering energy bills.

Choose a contemporary design for the living room, blackout fabric for the bedroom, or moisture-resistant print for the bathroom. Paired with the Perfect Fit system, our blinds offer style and safety.
